● BASEBALL STATISTICS

-BATTING AVERAGE: hits divided by official at-bats  
 -SLUGGING PERCENTAGE: total bases divided by official at-bats  
 -FIELDING AVERAGE: putouts + assists divided by total chances  
 -EARNED RUN AVERAGE: E.R. X 7(or 9) divided by innings pitched  
 What is an "Earned Run?" Would this run have scored if an error or passed ball (but not a "Wild Pitch") had not occurred? Reconstruct the inning without the E or PB. Also, a run scoring by ANY means after 3 outs SHOULD have been recorded is "unearned."

SPECIAL NOTE: Sean Bickford is listed in the Section 2 Record Book under BEST ERA/SEASON for his outstanding 0.24 ERA in 1988.
