## What is an Individualized Education Program (IEP)? - Session for Families of Preschool Students

This Zoom presentation provides families an overview of the process for developing an Individual Education Program (IEP) using a collaborative approach. The training provides a review of the components of the preschool IEP and the information that families can share with the Committee on Preschool Special Education (CPSE) regarding their child's performance and disability-related needs. Families will come away from this training with an understanding of the components of an IEP and the role that the family has in its development.

For registration assistance, please contact Dawn Rettig - [drettig@measinc.com](mailto:drettig@measinc.com) or 518-427-9840 ext.201.

For other questions, please contact Katie Pincher - [kpincer@measinc.com](mailto:kpincer@measinc.com) or 518-427-9840 ext. 207.
