What is an Individualized Education Program (IEP)? - Presentation for Families

This Zoom presentation provides families an overview of the process for developing an Individual Education Program (IEP) using a collaborative approach. The training provides a review of the components of the preschool IEP and the information that families can share with the Committee on Preschool Special Education (CPSE) regarding their child's performance and disability-related needs. Families will come away from this training with an understanding of the components of an IEP and the role that the family has in its development.

For questions **about registration** please contact Dawn Rettig drettig@measinc.com or 518-427-9840 ext. 201.

For **other questions**, please contact Ellen Burns eburns@measinc.com or 518-427-9840 ext. 217.
