Summary and Background Information

On March 11, 2021, the President signed into law the American Rescue Plan Act of 2021 (ARP). ARP makes available \$122.8 billion nationally in a third round of Elementary and Secondary School Emergency Relief (ESSER) funds. New York State has been allocated nearly \$9 billion under the ARP Act's Elementary and Secondary School Emergency Relief (ESSER) Fund.

The federal ARP statute requires that States reserve ARP ESSER funds for three State-level reservations for evidence-based activities and interventions that respond to students' social, emotional, mental health, and academic needs and address the disproportionate impact of COVID-19 on students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children and youth in foster care, and migratory students.

- Not less than 5 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, activities to address the academic impact of lost instructional time by supporting the implementation of evidence-based interventions.
- Not less than 1 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, the implementation of evidence-based summer enrichment programs.
- Not less than 1 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, the implementation of evidence-based comprehensive after-school programs.

The 2021-2022 enacted New York State budget fully allocated the required SEA reserves as subgrants to 398 LEAs and NYSED has made allocations to two additional LEAs. Specific LEA allocations are detailed in Columns D, E, and F in the **ARP ESSER Allocations Chart** (see also in the Document Library). Please note that these funds are in addition to the *90% LEA ARP-ESSER ALLOCATION* listed in Column C of that workbook and must be budgeted for separately.

As indicated in NYSED's approved **ARP ESSER State Plan**, NYSED has included within this application a list of evidence-based interventions related to each state reserve. LEAs will be required to utilize state reserve funds to implement evidence-based interventions either chosen from the NYSED-selected list or from another reputable source (such as, but not limited to, the What Works Clearinghouse).

RESOURCES RELATED TO EVIDENCE-BASED REQUIREMENTS.

LEAs must select and implement evidence-based activities and interventions either chosen from the NYSED-provided list (embedded within each section of the application) or from another reputable source. Selected interventions must fall into one of the four tiers of evidence defined in the Every Student Succeeds Act (ESSA). Specifically, evidence tiers are defined as:

- **Tier 1 - Strong Evidence:** Supported by strong evidence from at least one well designed, well implemented experimental study (randomized-control groups). Studies show that this strategy improves a relevant student outcome (e.g. reading scores, attendance rates). In these studies, students have been randomly assigned to treatment groups or control groups, so that researchers can speak with confidence that those who participate in the intervention strategy outperform those who do not. These studies meet the What Works Clearinghouse evidence standards without reservations. The studies use large, multi-site samples.
- **Tier 2 - Moderate Evidence:** Supported by at least one well-designed and well-implemented quasi-experimental study (matched groups, interrupted time series, et al.) Studies have found that the strategy improves a relevant student outcome (e.g. reading scores, attendance rates). Students in these studies have not been randomly assigned, but researchers have used statistical matching methods that allow them to speak with confidence that the strategy results in an improved outcome. These studies meet the What Works Clearinghouse evidence

ARP-ESSER Application: State Reserves - ARP State ReservesIntroduction/Instructions - Background Information

Page Last Modified: 11/09/2021

standards with reservations. The studies use large, multi-site samples. No other studies show that this strategy negatively impacts an outcome.

- **Tier 3 - Promising Evidence:** Supported by at least one well designed, well implemented correlational study with statistical controls for selection bias. There is evidence that this strategy improves a student outcome (reading scores, attendance rates), but that research may consist of correlational studies -- studies that can show a relationship between the strategy and outcome but cannot show that the improved outcome was the result of the strategy. The studies supporting Tier 3 strategies do not have to be based on large, multi-site samples. A strategy that would otherwise be considered Tier 1 or Tier 2, but it does not meet the sample size requirements, is considered Tier 3. No other studies show that this strategy negatively impacts an outcome.
- **Tier 4 - Demonstrates a Rationale:** High-quality research findings or positive evaluation suggests that this will likely improve student outcomes or other relevant outcomes; and there are ongoing efforts to examine the effects of such activity, strategy, or intervention. Based on existing research, the intervention cannot yet be defined as a Tier 1, Tier 2 or Tier 3. However, there is good reason to believe — based on existing research and data — that the intervention could improve relevant student outcomes.

Further information may be found in the **Federal Guidance on Evidence-Based Interventions**. There are a number of resources available that identify research which supports specific interventions. Districts and schools are encouraged to review the various clearinghouses to find programs, strategies, and interventions that align to the needs identified during the needs assessment process. Finally, additional technical assistance materials to support LEA planning and implementation of strategies and interventions are available on the Department's **ARP ESSER webpage** and in the Document Library.

Project Period

March 13, 2020 to September 30, 2024 to obligate funds. Funds must be fully liquidated and an FS-10F Final Expenditure Report submitted by October 31, 2024.

Project Number

The project number stems for the three state-reserve programs are:

Fund Code	Project
5884-21-XXXX	ARP-ESSER 5% State-Level Reserve - Addressing the Impact of Lost Instructional Time
5883-21-XXXX	ARP-ESSER 1% State-Level Reserve - Comprehensive After School
5882-21-XXXX	ARP-ESSER 1% State-Level Reserve - Summer Learning and Enrichment

This number should be used on the appropriate FS-10 budget form.

Submission Deadline

Completed applications are due by **November 30, 2021** (with extensions by request) and will be reviewed on a rolling basis.

If an eligible school district does not intent to apply for one or more of its ARP ESSER State Reserve allocations, please advise NYSED by

ARP-ESSER State Reserve: Assurances

1. The LEA assures that ESSER funds are used for activities allowable under section 2001(e) of the ARP Act, 18003(d) of the CARES Act and 313(d) of the CRRSA Act.
☒ YES, the LEA provides the above assurance.
2. The LEA assures that it will comply with all reporting requirements at such time and in such manner and containing such information as the Commissioner may reasonably require, including on matters such as but not limited to:
 1. data on each school's mode of instruction (remote, hybrid, in-person), including student attendance data (disaggregated by student subgroup) for each modality;
 2. LEA uses of funds to meet students' social, emotional, and academic needs, including through summer enrichment programming and other evidence-based interventions, and how they advance equity for underserved students;
 3. LEA uses of funds to sustain and support access to early childhood education programs;
 4. impacts and outcomes (disaggregated by student subgroup) through use of ARP ESSER funding (e.g., quantitative and qualitative results of ARP ESSER funding, including on personnel, student learning, and budgeting at the school and district level);
 5. student data (disaggregated by student subgroup) related to how the COVID-19 pandemic has affected instruction and learning;
 6. requirements under the Federal Financial Accountability Transparency Act (FFATA); and
 7. additional reporting requirements as may be necessary to ensure accountability and transparency of ARP ESSER funds.☒ YES, the LEA provides the above assurance.
3. The LEA assures that records pertaining to the ARP ESSER award under 2 C.F.R. § 200.334 and 34 C.F.R. §76.730, including financial records related to use of grant funds, will be retained separately from other grant funds, including but not limited to funds that an LEA receives under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) and the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSA Act).
☒ YES, the LEA provides the above assurance.
4. The LEA assures that the LEA will cooperate with any examination of records with respect to such funds by making records available for inspection, production, and examination, and authorized individuals available for interview and examination, upon the request of (i) the Department and/or its Inspector General; or (ii) any other federal agency, commission, or department in the lawful exercise of its jurisdiction and authority.
☒ YES, the LEA provides the above assurance.
5. The LEA assures that the LEA will comply with all applicable assurances in OMB Standard Forms 424B and D (Assurances for Non-Construction and Construction Programs), including the assurances relating to the legal authority to apply for assistance; access to records; conflict of interest; merit systems; nondiscrimination; Hatch Act provisions; labor standards; flood hazards; historic preservation; protection of human subjects; animal welfare; lead-based paint; Single Audit Act; and the general agreement to comply with all applicable Federal laws, executive orders and regulations.

ARP-ESSER State Reserve: Consultation

1. **An LEA must engage in meaningful consultation with stakeholders and give the public an opportunity to provide input in the development of its plan. Specifically, an LEA must engage in meaningful consultation with students; families; school and district administrators (including special education administrators); teachers; principals; school leaders; other educators; school staff; and their unions. Additionally, an LEA must engage in meaningful consultation with each of the following, to the extent present in or served by the LEA: Tribes; civil rights organizations (including disability rights organizations); and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, students involved with the juvenile justice system, and other underserved students.**

In the space provided below, please describe how the LEA has meaningfully engaged a diverse and representative set of stakeholders to receive feedback in developing its plans to address the impacts of lost instructional time, provide summer learning and enrichment, and support comprehensive after school activities using State-Level Reserve Funds.

Hudson Falls generally considers five groups as our representative applicable stakeholders for developing our plans: Our Board of Education, our larger public community, our entire staff, our District Learning Team (DLT), and our Shared Decision Making Team (SDM). Each of these was meaningfully engaged through appropriate methods.

Board of Education members met with the Superintendent and the Assistant Superintendent to discuss an overview of the funding streams, the allowable expenses, top-level ideas for use, and questions and answers. The focus with this group was to ensure the ideas being discussed for use would parallel or supplement the Board's Mission, Vision, and Values.

Our DLT is made up of our formal Teacher Leaders and our Administrative Team. Our SDM is made up of our Building Team Representatives (Teacher Association members), select administrators, community representatives, and our Superintendent. Both our DLT and SDM met together and separately with the District Office for an overview of the funding streams, the allowable expenses, top-level ideas for use, and questions and answers. These groups were then asked to go back to their stakeholders and feedback and feed up ideas for fund use and implementation. These ideas were collected, organized, and spun back out to leadership.

Our entire staff and larger community received the slide deck presentation and the recording of the Superintendent and Assistant Superintendent's presentation to the two groups just above. They were then asked to complete a ThoughtExchange which allows for both feedback and for others to 'vote' in support of ideas being floated. These ideas were also incorporated into the feedback and feed up of ideas for fund use and implementation. The LEA will continue to engage stakeholders on a regular basis. This will be completed through both Board of Education updates and conversations, monthly DLT and SDM meetings, and community newsletters and surveys.

2. **In the space provided below, please provide the URL for the website(s) where the LEA Plan for using State-Level Reserve Funds is/will be publicly posted.**
For an LEA that does not have a website, the LEA may identify an online platform (e.g. social media group or post, file sharing service, email listserv) that allows plans to be directly communicated to students, parents or legal guardians, school staff, and other stakeholders. As appropriate, the LEA should provide details about how the plan will be made available to people who request it.

<https://www.hfcsd.org/departments-services/budget-finance/>

3. **In the space provided below, please describe how the LEA will support ongoing engagement with parents and**

families, including engagement related to identified student needs, areas of student gains, and available assistance to families that will support student success.

Ongoing engagement with parents and families will be supported by:

^the continued work through the Board of Education as well as the Advocacy Subcommittee.

^The larger community and student body will be surveyed a minimum of 2x per year to gather feedback about progress.

^ ongoing public communications about the availability of before-/after-school student sessions, and summer enrichment

^communicaitons through traditional mail, backpack mail, social and web posts

^Parent university nights

^Community connections events for families and the community

ARP-ESSER State Reserve: Comprehensive Needs Assessment

- 1. In the space provided below, please describe how the LEA will determine the social, emotional, mental health, and academic needs of students, particularly those students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students.**

HFCSD has two main groups that convene regularly to annually assess our needs with various tools, holding ourselves accountable to district targets that address student needs PK-12. With guidance from our Shared Decision Making Team (SDM) and our District Learning Team (DLT), we gathered, analyzed, and summarized data, input, and feedback from internal and external stakeholders to complete our annual needs assessment. We have consulted with our Board of Education, and regularly request input from our community at large and students via our survey tool (ThoughtExchange). We also have used the work of our COVID SEL "Reboot Team" to understand the social, emotional, and mental health needs of our students.

This data, input, and feedback led us to frame our work within five district targets. The targets concern ^raising graduation rate, ^decreasing chronic absenteeism, ^reducing course failures, ^increasing literacy at the lower grades, and ^increased performance on state assessments.

5% State-Level Reserve - Addressing the Impact of Lost Instructional Time: Program Design

1. The interventions implemented through the 5% State-Level Reserve to address the impacts of lost instructional time must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for addressing the impacts of lost instructional time will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.

We know from our Reading Intervention data and our Star results that our students have fallen off the expected growth trajectory for the early grades due to lost instructional time over the past two years due to COVID closures and remote learning.. For this specific funding, we will increase the available K-3 interventions with additional staffing. This intervention show strong evidence from WWS when we provide intensive, systematic instruction on up to three foundational reading skills in small groups to students who score below the benchmark score on universal screening.

We know from our math AIS data that our students have fallen off the expected growth trajectory for the early grades due to lost instructional time over the past two years due to COVID closures and remote learning. For this specific funding we will increase the available math K-5 interventions with additional staffing. Providing systematic instruction during intervention to develop student understanding of mathematical ideas has shown strong evidence according to WWC.

As students have come back to school full-time this year, we are seeing an increase in behaviors in school. In our Primary School, which serves grades 1-3, we will fund staffing for the Transition Room which serves to teach and reinforce new skills to increase appropriate behavior and preserve a positive classroom climate. This shows strong evidence according to WWC.

This coordinates with the other two State Reserve funds to make a three-pronged approach: in-school early grade interventions, SEL interventions, and COVID recovery.

2. In the chart below, please provide additional information about the planned evidence-based interventions that have been selected to address the impacts of lost instructional time. For each row, please select a planned intervention from the drop-down menu or select "Other Evidence-Based Intervention" as needed. For each planned intervention, indicate the amount of ARP State-Reserve funding that will be invested, the grade levels to be served, targeted student groups to be served, and a detailed description of the specific activities that will be implemented. Please add rows as necessary to reflect the district's entire plan for the use of State-Reserve funds to address the impact of lost instructional time.

3. In the space provided below, please describe how the LEA will monitor and evaluate the effectiveness of selected strategies to ensure that the interventions implemented respond to students' social, emotional, mental health, and academic needs. Provide details about how changes to the program plan (such as changes in identified areas of need or supports provided to students) will be communicated to stakeholders.

We will monitor and evaluate both the ELA and math interventions by looking for the number of students making the expected growth back to grade-level expectations. Should there be changes needed this will be communicated to our stakeholders through building-level communications, budget staffing communications and Board of Education updates.

We will monitor and evaluate the SEL interventions by looking for the number of office discipline referrals to be decreasing. Ideally we should see less use of the room over time as the Tier one interventions take hold. Should there be changes needed this will be communicated to our stakeholders through building-level communications, budget staffing communications and Board of Education updates.

1% State-Level Reserve - Comprehensive After School: Program Design

High-quality afterschool programs should have the goal of providing students with important opportunities for academic support and access to enrichment opportunities that help develop social, emotional, and leadership skills. These benefits are particularly important to students from low-income backgrounds, students who are struggling, and students at risk for later academic disengagement. High-quality afterschool programs have demonstrated positive effects on student math and language arts achievement, and programs strongly rooted in the school context can also have a positive impact on school related student outcomes, including greater self-confidence, increased civic engagement, better school attendance, improved high school graduation, and decreased delinquency.

- The interventions implemented through the 1% State-Level Reserve for comprehensive after school programming must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for comprehensive after school programming will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.**

With this funding, we are offering high-dosage tutoring to all students who have been affected by Covid isolation or quarantine. For perspective, in our district at any given time, up to 200 healthy students are being excluded by the local health department. While we offer synchronous instruction- access to the live classroom for those students while home- we know that in-person instruction leads to greater learning. As students return from quarantine/isolation exclusion we offer four days a week of instructional tutoring across the content areas. This will be done using our current staff who are compensated for working beyond the normal work day.

This coordinates with the other two State Reserve funds to make a three-pronged approach: in-school early grade interventions, SEL interventions, and COVID recovery.

- In the chart below, please provide additional information about the planned evidence-interventions that have been selected to address the impacts of lost instructional time. For each row, please select a planned intervention from the drop-down menu or select "Other Evidence-Based Intervention" as needed. For each planned intervention, indicate the amount of ARP State-Reserve funding that will be invested, the grade levels to be served, targeted student groups to be served, and a detailed description of the specific activities that will be implemented. Please add rows as necessary to reflect the district's entire plan for the use of State-Reserve funds to address the impact of lost instructional time.**

3. In the space provided below, please describe how the LEA will monitor and evaluate the effectiveness of selected comprehensive after school programming/strategies to ensure that the interventions implemented respond to students' social, emotional, mental health, and academic needs. Provide details about how changes to the program plan (such as changes in identified areas of need or supports provided to students) will be communicated to stakeholders.

We will monitor and evaluate the tutoring interventions by looking for the number of students making the expected growth back to grade-level expectations. Should there be changes needed this will be communicated to our stakeholders through building-level communications, budget staffing communications and Board of Education updates.

1% State-Level Reserve - Summer Learning and Enrichment: Program Design

Summer learning programs can offer another opportunity to accelerate learning, especially for those students most impacted by disruptions to learning during the school year. Schools and districts should design programs that work best in the local context and reflect the characteristics that evidence suggests lead to successful summer programs. These characteristics include: programs are voluntary, full-day lasting five to six weeks, include three hours of language arts and mathematics taught by a certified teacher each day, and include enrichment activities and experiences. Research points to the potentially positive benefits of strong summer programs. A longitudinal study of summer programs showed students who participated in the summer programs that were reviewed received some benefits in mathematics; however, students with high rates of attendance who attended programs for consecutive summers experienced the greatest learning gains. The amount and quality of instruction influenced the academic benefit, with the highest benefits to students attending programs with high-quality instruction provided by a certified teacher and high academic time on task.

- The interventions implemented through the 1% State-Level Reserve for summer learning and enrichment must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for summer learning and enrichment will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.**

Our summer program will be 4-5 days per week lasting six weeks. Students attend on a voluntary basis. All courses are taught by certified teachers. We offer not only math and ELA, but SS, Science, and health as well. As we fund our academic program with the State Reserves it allows us the flexibility to offer enrichment activities and experiences in the second half of the day funded locally. This coordinates with the other two State Reserve funds to make a three-pronged approach: in-school early grade interventions, SEL interventions, and COVID recovery.

- In the chart below, please provide additional information about the planned evidence-based interventions that have been selected to address the impacts of lost instructional time. We will monitor and evaluate our summer school programming by looking for the number of students who stay on -track to progress to the next middle school grade, and who obtain the proper number of credits as a high school student to stay on track for graduation. Should there be changes needed this will be communicated to our stakeholders through building-level communications, budget staffing communications and Board of Education updates.
